

LATEST UPDATE FOR PALM ISLAND

Quick update from

[Palm Island Aboriginal Shire Council](http://www.plac.com.au)

COMMUNITY MEMBERS TRAVELLING TO TOWNSVILLE

HAVE YOU HEARD ABOUT THE POSITIVE
COVID WASTEWATER ON PALM?

HAVE YOU BEEN VACCINATED?

ARE YOU UNWELL AT ALL?

We understand many people are travelling to Townsville over the next few days for funerals and other business.

Following two positive water tests we know someone who has had covid was on Palm or is on Palm still.

It is very important that if you are feeling unwell with any symptoms that you get a COVID test immediately.

Thank you
Palm LDMG Coordinator.
